

Plating & Finishing

Finishing is the final step in our manufacturing process, ensuring that every part coming out of E-Fab is ready for use in mission-critical applications. Our team is experts in accurately applying plating and finishing processes to parts that ensure reliability, durability, and precision.

Our customers come to us for parts for use in highly-sensitive applications in the aerospace, defense, automotive, telecommunications, and energy industries.

E-Fab's Plating & Finishing Expertise

We have decades of experience applying an array of plating and finishing processes for parts used by industry leaders.
